Dear Sir:

Enclosed is an invitation to our annual Business Show. In planning this array of material our thought was to introduce many interesting things covering potential Government interest.

In an Agency such as yours, it is rather difficult to see and acquaint your specialists with the many things that come along from time to time. These are those items for which Federal Schedules exist or are sold in the open market. Factory people are present at our show which affords an individual an opportunity to discuss intelligently some of the points of interest.

If you interpose no objection to concerned personnel in your Agency attending this exhibit at their option during the three day period when they could be spared, it would provide them with the usual informative material that specialized trade shows are noted for. This, particularly, since it is limited in attendance only to the Federal and D.C. Government.

If you feel favorably disposed to permit some of your people to attend our exhibit it would be appreciated if notice could be disseminated to them.

Also, hope that we may have the pleasure of your company.

Very truly yours,

L. J. Milliken
